

April 14th,

We arrived at the airport at 6 p.m., to make sure we won't miss our flight to PORTUGAL!!!

We landed in Porto at 12.15 p.m. (Portuguese time).

April 15th,

The next 10 hours we were staying at the airport. This was really long and (almost) sleepless night.

In the morning, after a quick coffee, we decided to go sightseeing. Our first stop was (obviously) McDonald, where we had breakfast.

After that we were walking around the city. Among others we saw a bookshop with famous stairs, used in "Harry Potter" series and we also went to the cost by antique tram.

After this full of impressions day we met our friends from Bulgaria and together we went to Braganca. We were kindly greeted there by the people we were supposed to stay with for a week.

April 16th,

First day in Braganca started off with visit to the school, where we met people from other countries and we told them something about us and our school.

Then we were shown off around the huge school in Braganca.

Right after that we visited the Town Hall . When all of the activities finished, we had free time, which we usually spend in Polish-Portuguese bunch.

April 17th,

This day we could attend classes. When the lesson ended, we played a city game, which was based on knowledge of the city.

Next we went to the collective painting class. Our goal there was to reproduce a painting. Each country got one part of it to hang it up in their school.

Soon after we went to the fun fair and we had great time there.

April 18th,

In the morning at 10.30 a.m. we went to museum Graça Morais, where we admired marvelous paintings, photos and neon sculptures.

After lunch we had the next collective painting class.

At 5.00 p.m. we went to play billiard with our Portuguese and in the evening we visited castle.

April 19th,

Our day began with a conference about virtual reality, which after that we could experience.

On this day everyone visited Braganca castle. After the trip we made aura in application Aurasma.

In evening all families met in valedictory diner, where we were playing and we got diploma.

April 20th,

Early morning we left to Porto, where (again) we were sightseeing.

We visited winery and had a cruised on the river. Unfortunately, soon afterwards we had to say good bye to Portuguese, Bulgarian and Italian teams, which we made friends with over the marvelous week.

In evening we went to a restaurant with Bulgarians and after that we went to hotel.

April 21th,

This day was our last day in Portugal. At 1.00 p.m. we went to the airport and around 4.00 p.m. we flew back to Poland. ☹ ☹ ☹
