

Lesson plan for the use of Augmented Reality

Title:

Description:

School:

OBJECTIVES		Presentation of the Effect of Global Pollution and Greenhouse effect
OVERVIEW	Topic	Climate changes
	Class (target age)	10v
	Ideal group size	6 groups of 4 or 5 students
	Time to complete	5 lessons/periods
RESOURCES (Apps...)		
ACTIVITIES	1.	Presentation of the work - methods, programmes and expected results - HP Reveal - PowerPoint
	2.	Students' research and pictures drawing
	3.	Students research and making PowerPoint presentations on the topic given
	4	HP Reveal - it gives the students the possibility to be more creative and present their work in a more attractive way. The drawings and pictures they do (used as triggers) as well as the videos are converted into Augmented reality. The PowerPoint presentations are converted into videos and used as overlays of the "Auras".
	5.	Presentation of the work
EVALUATION		Excellent work and results
